Mexican Immigrants in the Labor Market

Topic: Immigration and Work

- Mexicans are a huge amount of illegal or legal immigrants that have come to the United States. They work more in labor and live in places like mobile homes (Amado 7-8).
- They are successful in finding jobs because they have friends and family to help them. Some ways that they help each other is by living together and telling each other where there is work (Amado 9-11).

Assessment

The strengths about the sources are that it shows that Mexicans are successful in the United States and how they are able to have a better life. Also how the U.S. does not want them here especially illegal immigrants. The weaknesses are that there needs to be more detail that some have accomplished their goals in the U.S. and how others have not.

The narrative topics the source addresses is immigration and work and for the second source is immigration problems.

What is important about the first source is that he helps us understand that immigrants help each other to have a better life in the U.S. What is important about the second source is that...
immigrants keep coming in illegally even when they are risking it when there are laws being put against them.
